July 14, 2004

TO OUR SHAREHOLDERS:

I am sure you share my pleasure that our company has had another profitable year with an increase in pre-tax income of 25% over the prior year. We were able to accomplish this despite a smaller revenue base.

While our sales for the first six months were disappointing, sales for the second half increased over the prior year period. I expect this favorable trend to continue in the current year. Our balance sheet has been strengthened with our outstanding debt as of March 31, '04 reduced to \$2.375 million from \$6.134 million in the prior year.

The major decline on a year-to-year basis was in our US consumer business which was caused primarily by the loss of a major retailer in the first half of fiscal 2004 when a new lower cost competitor came into our market. The superior performance of our products was able to displace them in the second half and regain our position. Our ROLODEX® Electronics brand of organizers and databanks remains weak as the worldwide demand for these basic function devices continues to be impacted by cell phone and PDA usage.

In October of 2003 we restructured our US consumer business units to establish a North American Operations division to provide more focus on profitability, instead of each domestic revenue entity having sales and margin responsibility only. Our overseas subsidiaries are already managed in this fashion. Michael Crincoli, who was promoted to Vice President, North American Operations, is responsible for managing this P&L initiative in our new structure. Mike had previously been our Vice President of North American Sales. This new structure provided much better P & L focus which was evidenced in our performance in the second half of the year when we were able to achieve revenue and operating profit growth as compared to the prior year period and which continues into the first quarter of our current fiscal year.

During fiscal '04 we continued to launch new products highlighted by our flagship Speaking Merriam-Webster Collegiate® Dictionary, Eleventh Edition which is a handheld version of Merriam Webster's best selling and most prestigious title. The sales of this product, and distribution thereof, continued to broaden as the year progressed and into the current year. In the 4th quarter we began a limited test in selected Borders Bookstores with a range of our reference devices including the 11th Collegiate. We still suffer from an awareness problem. Consumers buy Franklin products because they have heard about them, seen an ad, stumbled across them and think, "Gee, maybe that would be nice for Billy." But when someone is thinking about reference material, where do they go? A bookstore. Borders has been so pleased with the results that for the first time ever a major book seller will be rolling out Franklin products chain wide. Look for select Franklin reference titles at your local Borders this Back-to-School season. It's just a natural.

We began distributing Seiko Instruments Inc. products to major customers like Wal-Mart and Radio Shack in FY 2004. We expanded our spiritual product line to include a Bible commentary, a Bible dictionary and an ultra thin, clip-on PageMark Edition of a Bible Concordance. In fact, our PageMark series won a Design award at January's Consumer Electronics Show in Las Vegas. Our electronic version of The Official SCRABBLE® Players Dictionary was developed in response to a petition from the National Scrabble Association and just one look at the product instinctively says Scrabble. During the year we launched a "Better Grades" guarantee for many of our educational products. That's how confident we are in the educational value of our products.

On our licensing front, Ademco, a Division of Honeywell, has now started to manufacture their products using the VLSI chip which we had licensed to them several years ago. MDM, a spin-off of Palm, expanded its licensing arrangements for us to provide the industry's first cross-platform reference solution. We launched the world's first cross-platform speaking title together with MDM which is on a postage stamp sized memory card that provides audible translation in 5 European languages for all Palm, Pocket PC, and Nokia Series 60 devices.

MobiPocket, a French software company in which we own a 25% interest, continues to be an important asset to Franklin. Our collaborative "reader" initiative with MobiPocket will launch with a line of new Franklin reference products due out later this year. Not only did Mobi's value increase over the prior year but together we launched eBookBase which now has over 17,000 titles from 200 prestigious world publishers offered for sale on our respective websites and a host of other websites.

Our domestic internet sales increased as we continuously improve our search engine optimization to bring more and more relevant customers to our website.

During the past year, our senior management team and I devoted a great deal of time to develop a long-term strategic plan which will focus our efforts on the several areas which offer the best growth opportunities for our company.

We have looked in the mirror at our own strengths and weaknesses and through the window at defining the major opportunities we have. Our growth strategy evolved from weighing the risks versus the opportunities.

In the course of developing this plan, we did a great deal of internal analysis of the company which showed us how to better approach our existing and new markets and improve operations, and more importantly showed us the significant growth opportunities that we have in these markets. Although our sales have suffered in recent years, the global business, specifically of dedicated handheld reference devices is nearing a billion dollars a year at wholesale and growing!

The greatest single, worldwide opportunity that we have is in language learning, specifically learning of the English language. It's evident that in the global economy for people to succeed, they must master English. Over 78% of the world's handheld reference business takes place in Asia. Japan alone accounts for over 50% of this business. We recently announced an alliance with Seiko Instruments Inc. of Tokyo, Japan who is one of the top three players in the Japanese market. We will be working with Seiko in the Japanese, Korean and Chinese markets to bring Franklin reference products to the region. Seiko sees the strengths of Franklin and how together we can grow market share through some unique differentiation between us and our competitors. Franklin will also distribute the Seiko reference products in the North American, European and Australian markets as we increase our relevance in markets we already lead.

While our Spelling Ace spell corrector is on the recommended reading list of some 20,000 schools nationwide, the US educational market is very fragmented as each state and local school district has its own curriculum and criteria. Standardized testing, however, means that we can leverage our development efforts to a much broader audience. We believe that standardized testing can be an explosive category for our company. We recently entered into an alliance to distribute content provided by The Princeton Review, perhaps the most respected and well known name in standardized testing. We will be launching our "Cracking the SAT", early in calendar 2005 and are building a test taking platform to coincide with our roadmap of the most relevant Standardized Testing titles both domestically and abroad.

The Hispanic market continues to be the largest growing demographic in the US. We're establishing an entire business unit under the North American Operations division specifically to enhance our presence and visibility, and hence revenues in this important and growing market. We are underway in developing new products specifically geared to this consumer to not only help them learn English, but as they learn to also provide them valuable feedback as to how well they are learning. The challenge is to get better and better and improve their score. With both our Standardized Testing devices and our Hispanic offerings, "scored" learning provides a user with goals and a means to measure their improvement.

Our Proximity Division recently renewed its three year licensing agreement with Adobe Systems which will generate revenue of \$2.7 million in fiscal '06. This renewal, in fact, is a testimonial that we are the best in linguistic solutions. With the globalization of software applications and the rapid growth of web based information and commerce; our "linguistic solutions" have re-emerged as a growth opportunity for our company.

We've secured two new OEM projects in the current year, the first being a line of four custom products exclusively for The Sharper Image. We'll also be producing, on an exclusive basis, a spiritual product for a well known and respected evangelist.

Fiscal '05 also marks the year when retailers, although skittish at first to offer higher priced reference SKU's, are cheerfully ringing up higher dollar sales now that our efforts to "give it a try" have convinced them the market will support these products. Major retailers who once shied away from \$100 and up reference products are now surprising themselves by exceeding their own sales expectations.

We must also increase the relevance of what we do in light of new technologies and the new ways people work and learn. We have applied for a patent for "PC View" technology so that on select Franklin devices hosting a suite of reference material, a student can not only access the data on his handheld device anywhere at anytime time but can access that same exact data when connected to his PC. This is a terrific new function that broadens the relevance of our products and, in fact, when combined with a suite of reference titles, is often more functionally cost effective than buying the same suite of titles in its print or CD counterparts.

The opportunities are clearly there. The challenge now is timely, cost effective, quality execution with a re-aligned, focused organization.

I look forward to seeing you at the upcoming Shareholders' meeting where I can demonstrate for you some of the exciting new concepts underway at our company.

On behalf of our Directors, Officers and Employees,

A handwritten signature in black ink, appearing to read "B. Lipsky", with a stylized, flowing script.

Barry J. Lipsky
President and Chief Executive Officer

This 2004 Annual Report on Form 10-K contains statements which constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Those statements include statements regarding the intent and belief or current expectations of Franklin and its management team. Prospective investors are cautioned that any such forward-looking statements are not guarantees of future performance and involve risks and uncertainties, and that actual results may differ materially from those projected in the forward-looking statements. Such risks and uncertainties include, among other things, the timely availability and acceptance of new electronic books, organizers, and other electronic products, changes in technology, the impact of competitive electronic products, the management of inventories, Franklin's dependence on key licenses, titles and products, Franklin's dependence on third party component suppliers and manufacturers, including those that provide Franklin-specific parts, and other risks and uncertainties that may be detailed herein, and from time-to-time, in Franklin's other reports filed with the Securities and Exchange Commission. Franklin undertakes no obligation to publicly update any forward-looking statements for any reason, even if new information becomes available or other events occur in the future.

PART I

ITEM 1. BUSINESS

Franklin Electronic Publishers, Incorporated ("Franklin" or the "Company") designs, develops, publishes and distributes electronic information on handheld devices, memory media cards, and via internet downloads.

The Company believes it is one of the world's largest designers, developers and publishers of electronic reference books, having sold more than thirty-two million handheld devices since 1986. The Company's handheld devices are battery-powered platforms with screen displays that incorporate the text of a reference work, such as a dictionary. The Company owns or has licenses to publish in electronic format more than one hundred core reference titles, including monolingual and bilingual dictionaries (such as *Merriam-Webster's Collegiate® Dictionary*), the Holy Bible, encyclopedias (such as the *Britannica® Concise Encyclopedia*), entertainment-oriented publications (such as *The Official Scrabble® Dictionary*), and educational and medical publications. In addition, the Company owns or has licenses to distribute in electronic format either directly or through third parties, more than seventeen thousand titles, including reference works and general literature, via internet download.

The Company marketed its first handheld reference device, the Spelling Ace® spelling corrector, in 1986. The Company believes that the Spelling Ace device was one of the first electronic books marketed in the United States. Beginning in 1987, Franklin began marketing increasingly sophisticated electronic versions of thesauruses and dictionaries and, in 1989, the first handheld electronic version of the *Holy Bible*. In 1995 the Company introduced a line of updateable handhelds through a proprietary memory card system and in 2003 introduced a PageMark Dictionary™ series as a companion to paper.

In 2001, the Company formed a strategic alliance with Mobipocket, SA of Paris, France, ("MobiPocket") which had been working on a cross platform solution for providing electronic content in a single file format to all popular portable and desktop devices and in April 2003 the Company purchased a twenty-five percent equity interest in MobiPocket. The Company believes this to be an important alliance, providing for Franklin's own proprietary, generally lower-priced devices to access more content, and enabling Franklin to leverage its content development and availability to include access to the more than 50,000,000 personal digital assistant platforms, smartphones and hundreds of millions of personal computers already in the market.

The Company was incorporated in 1983 in the Commonwealth of Pennsylvania as the successor to a business commenced in 1981. The Company's principal executive offices are located at One Franklin Plaza, Burlington, New Jersey 08016-4907, and its telephone number is (609) 386-2500.

COMPETITIVE ADVANTAGES

The Company believes that it has the following competitive advantages:

- *Efficient and Cost-Effective Manufacturing Process.* Franklin controls the entire manufacturing process of its products, from design to sale, but does not own actual manufacturing facilities. This “virtual manufacturing” model enables the Company to produce its products in the most cost-effective manner by allowing the Company to outsource the manufacturing and assembly functions to third parties which meet the Company’s cost and quality specifications. In this way, the Company maintains a high degree of flexibility and adaptability in its product sourcing operations with minimal capital invested and, due to the use of multiple factories in various Asian countries, the Company is able to maintain competitive manufacturing costs.
- *Strong Share in Electronic Reference Books.* Franklin believes that it is the preeminent company in the handheld electronic reference market in the United States and certain international markets. The Company believes that it has significant market share in North America and Australia, as well as a major presence in Europe and the Middle East. Over the past seventeen years, Franklin has sold more than thirty-two million handheld devices worldwide.
- *Breadth and Strength of Distribution.* The Company distributes its products through approximately 45,000 retail outlets in more than fifty countries and through the internet and catalog mailings direct to customers. The Company also uses direct channels to serve multiple markets, such as the professional, educational and customized application markets. In the educational market, the Company’s electronic books are used in tens of thousands of schools throughout the United States. With the success of its electronic Holy Bible, the Company has achieved substantial sales in the spiritual market, with Franklin products currently distributed through Christian-affiliated bookstores and Radio Shack.
- *Technological Leadership in eBooks.* Franklin has significant expertise in providing high quality content and functionality through cost-effective hardware designs of electronic information products. The Company designs and has manufactured for its use proprietary microprocessors. The Company’s products combine sophisticated technology with a user-friendly interface designed for convenient and rapid retrieval of data. Franklin’s ability to compress data and to design systems that permit quick and intelligent information retrieval enables it to offer compact products with high functionality. For example, the Company stores the *Merriam-Webster’s Collegiate Dictionary, 11th Edition*, which fills up thirty-seven megabytes of memory space, into the memory space of only nine megabytes which also includes sophisticated search and retrieval functionality. The Company has been able to manufacture higher performance products at lower cost due in part to declining prices of memory chips. The Company’s vertically integrated research and development effort, devoted to developing both the hardware and software for its products, also enables it quickly to utilize cost-minimizing technologies. As a result, the cost of Franklin’s products to consumers has decreased over the years to prices approaching those of print versions of reference publications, offering consumers added value at attractive price points.
- *Long-standing Relationships and Licenses with Many Top Publishers.* The Company has electronic rights to over 100 core reference titles, including several versions of English and bilingual dictionaries, Bibles, and the *Oxford Handbook of Clinical Medicine*. The Company obtains its licenses from a variety of well-established publishers such as Merriam-Webster, Harper Collins, SEJER (formerly Vivendi Universal) and Ernst Klett International. These licenses are supported by long-standing relationships with the publishers, providing Franklin with a significant competitive advantage. In the past several years the Company has increased the scope of its licenses to publish and/or distribute eBooks to cover over 17,000 titles including titles from well known publishers such as St. Martin’s Press, McGraw Hill, Time Warner, Random House, Harper Collins and others.

BUSINESS STRATEGIES

Franklin was the first, and strives to be the best, in electronic books focusing on linguistic solutions. The Company's strategy to fulfill that mission is to leverage its leading market position by exploiting the following opportunities:

- *Consumer Driven Product Development and Marketing.* While the Company has built strong distribution for its major products, it believes that further opportunities lie in its ability to take a more marketing driven approach to product development. The Company believes a better understanding of its customers will allow it to boost sales, lower costs, accelerate sell through at retail and lead to successful new product introductions. The Company has initiated a new product category management process to further exploit additional opportunities in its core markets including language, language learning, bible, organization and leisure. For example, the Company's *PageMark Dictionary™* has been well-received in the marketplace since its 2003 launch and won top honors in Personal Electronic Design at the Design and Engineering Showcase at the 2004 Consumer Electronics Show. The Company regularly conducts consumer research to better understand its customers' needs to be able to expand its solution-based product offerings in these markets.
- *Continuing Upgrade of Core Products.* The Company's core product line continues to represent a substantial portion of its revenue. Dictionaries, spell correctors, translators and Bibles have been the Company's mainstream consumer electronics products. The Company intends to continue to upgrade and enhance its core products.
- *Investment in Marketing.* To date, the Company has engaged in limited advertising on the national or local levels and relies heavily on cooperative advertising with its key retailers and on advertising in targeted local markets.
- *Growth in Selected International Markets.* The Company has had success in selling its products directly through wholly-owned, local subsidiaries in selected international markets, and through distributors in other markets. The Company anticipates that its international sales will continue to provide a significant portion of its revenues as the "English Learning" market continues to expand on a global basis.
- *Exploitation of OEM and Licensing Opportunities.* Original Equipment Manufacturer ("OEM") opportunities are business agreements pursuant to which the Company develops products, software, and technology for resale or use by its partners. The Company has such agreements in the medical publishing and international markets and will seek to broaden its activities to other markets. The Company believes its OEM business can be expanded as the Company upgrades existing and develops new open system platforms. The Company licenses its technology to preeminent companies such as Adobe Systems, Macromedia, Ademco (a division of Honeywell), and Mobile Digital Media, a spin-off of Palm, Inc.
- *Use of the Internet to Distribute Handheld Reference Devices and Content.* The Company distributes its handheld devices and e-Books on its web page (franklin.com) and other third party websites. The Company has developed Internet-enabled hardware platforms to provide for portable use of content delivered from the Company's website and other third party websites.

RISK FACTORS

The Company believes that the most significant risks to its business involve those set forth below.

- *Dependence on New Products and Titles.* The Company depends to a certain extent on the introduction of successful new products and titles to generate sales growth and replace declining revenues from certain older products and titles. The Company currently has several new products and titles under development; however, significant development efforts for a number of the Company's proposed new products and titles will be required prior to their commercialization. A significant delay in

the introduction of a new product or title could have a material adverse effect on the ultimate success of the product or title. In addition, if revenues from new products and titles fail to replace declining revenues from certain existing products and titles, the Company's operating results and growth could be adversely affected. There can be no assurance that new products and titles currently under development will be introduced on schedule, that they will generate significant revenues, or that the Company will be able to introduce additional new products and titles in the future.

- *Inventory Management.* The Company's lead times are necessarily long because of the custom nature of certain components and because most of its components are manufactured, and handheld products are assembled, in Asia. Accordingly, production and procurement planning are critically related to the Company's anticipated sales volume. Any significant deviation from projected future sales could result in material shortages or surpluses of inventory. Shortages could cause the Company's distribution base to shrink as customers turn to the Company's competitors. Inventory surpluses could cause cash flow and other financial problems, which might cause the Company to liquidate inventory at a loss. There can be no assurance that the Company's forecasts of demand for its products will be accurate. Inaccurate forecasts, or unsuccessful efforts by the Company to cope with surpluses or shortages, could have a material adverse effect on the Company's business.
- *Changes in Technology.* In general, the computer industry, both with respect to software and hardware, is subject to rapidly changing technology. Accordingly, the technology underlying the Company's products may similarly be subject to change. The introduction of products embodying new technologies and the emergence of new industry standards could exert price pressure on the Company's existing products or render such products unmarketable or obsolete. The Company's ability to anticipate changes in technology and industry standards and to develop and introduce new and enhanced products, as well as additional applications for existing products, in each case on a timely and cost-effective basis, will be a critical factor in the Company's ability to grow and remain competitive. There can be no assurance that technological changes will not materially adversely affect the Company's business.
- *Competition.* The consumer electronics and handheld product markets are highly competitive and characterized by rapid technological advances and the regular introduction of new products or enhancements of existing products. The Company believes it faces various degrees of competition at different price points in these markets. Competitive factors include product quality and reliability, price, performance, marketing and distribution capability, service and reputation. There can be no assurance that companies currently in the consumer electronics or handheld product markets will not enter the markets in which the Company currently sells its products. There can be no assurance that other companies, currently in the consumer electronics industry, will not enter the electronic reference market. Many of such companies have greater capital, research and development, marketing and distribution resources than the Company. If new competitors emerge or the existing market becomes more competitive, the Company could experience significant pressure on prices and margins.
- *Dependence on Key Suppliers.* Certain integrated circuits essential to the functioning of the Company's products are manufactured by a relatively small number of overseas or domestic suppliers. Missed, late or erratic deliveries of custom IC-ROMs and other parts could have a material adverse impact on the timing of new product deliveries as well as the Company's ability to meet demand for existing products. If any one of the integrated circuit suppliers were unable to meet its commitments to the Company on a timely basis, such failure could have a material adverse effect on the Company's business.
- *Dependence on Key Licenses and Titles.* The Company depends on licenses from a variety of well-established publishers such as Merriam-Webster, Harper Collins, SEJER, (formerly Vivendi Universal) and Ernst Klett International for the right to distribute over 100 core reference titles, including several versions of English and bilingual dictionaries, Bibles related works, and the *Oxford Handbook of Clinical Medicine*. If an existing license agreement covering certain of our core reference titles was terminated or not renewed, we would have to develop and introduce alternative or new titles, which could have a negative impact on our results of operations and profitability. Although we cannot

guarantee that we will be able to extend the terms of our existing license agreements or that we will be successful in negotiating alternative or new license agreements, our existing licenses are supported by long-standing relationships with the publishers, and to date we have been able to obtain extensions on our existing license agreements or enter into new license agreements

- *Dependence on Key Products.* The Company derived 11%, 13%, and 12% of its consolidated revenue for the fiscal years ended March 31, 2004, 2003, and 2002, respectively, from one dictionary product under a license which expires in 2007.
- *Intellectual Property Rights.* The Company owns utility and design patents in the United States and elsewhere on its electronic books. There can be no assurance (i) that the claims allowed under any patents will be sufficiently broad to protect the Company's technology, (ii) that the patents issued to the Company will not be challenged, invalidated or circumvented or (iii) as to the degree or adequacy of protection any patents or patent applications will afford. The Company also claims proprietary rights in various technologies, know-how, trade secrets and trademarks which relate to its principal products and operations, none of which rights is the subject of patents or patent applications in any jurisdiction. There can be no assurance as to the degree of protection these rights may or will afford the Company or that third parties will not obtain patent rights that may be interposed against the Company's products.
- *International Sales and Currency Fluctuations.* The Company expects that international sales will continue to constitute a material portion of the Company's business. The Company's international business is subject to various risks common to international activities, including political and economic instability and the need to comply with export laws, tariff regulations and regulatory requirements. There can be no assurance that political or economic instability in any given country or countries will not have an adverse impact on the Company's overall operations. Because approximately 31% of the Company's 2004 sales are made in currencies other than the U.S. dollar, the Company is subject to the risk of fluctuation in currency values from period to period. The risk associated with fluctuations in currency values can be expected to increase to the extent the Company expands its international operations. The Company maintains a program of selling Euros at current rates for future settlement in order to protect the dollar value of sales generated by foreign subsidiaries. Gains or losses on these contracts are offset primarily by the effect of the foreign exchange rate changes on the underlying transactions.

PRODUCTS

Electronic Books

Dictionaries

Franklin's electronic spelling products (the "Spelling Ace®" line) operate as phonetic spelling error detectors and correctors, puzzle solvers, word list builders and word finders. These products permit the user to obtain the correct spelling of a word that the user does not know how to spell correctly. For example, if the user phonetically types in "krokodyl," the book will display a list of seven words including, as the first choice, "crocodile." The Company markets various versions in the Spelling Ace line incorporating different databases.

The Company's top-of-the-line electronic dictionary is *Merriam-Webster's Speaking Collegiate Dictionary, 11th Edition* which is sold for use in BOOKMAN® products and which contains more than 200,000 words with clear and concise definitions, as well as parts of speech, hyphenation points and different word forms (inflections). All of the Company's electronic dictionaries provide phonetic spelling correction and many provide thesaurus features as well. For example, if a user enters the word "baffled," the thesaurus will display eleven different synonyms, including "frustrated," "disappointed" and "foiled."

The Company markets versions of its dictionaries that include speech synthesis circuitry (based on text to speech technology in which algorithms are used to convert text into sound) which allows the Company's

products to pronounce, in computer generated speech, relevant words contained in the various databases. The Company also has developed and sold audio products that use digitally recorded and compressed speech, which provides for a more natural sounding voice.

The Company's line of products also includes bilingual dictionaries. Each contains more than 200,000 words in both English and either Spanish, French, German, Arabic or Hebrew, and each provides complete translations, definitions, verb conjugations and a gender guide, and plays a variety of language learning games to help teach the language. The Spanish/English dictionary is marketed in versions with and without speech synthesis for both Spanish and English words. Many of the other bilingual dictionaries are equipped with speech synthesis for the English words. The Company currently markets a French/German dictionary and bilingual dictionaries for several other languages, including other language pairs that do not include English, such as German/Italian and French/Spanish.

Franklin has a speaking dictionary designed to facilitate use by blind, visually impaired or learning disabled individuals, as well as others with special needs. This dictionary incorporates speech technology which pronounces every word at user adjustable volumes and speeds. In addition, this dictionary is equipped with full audio feedback, which allows every key on the keyboard to speak its letter or function. Other features include a keyboard with high-contrast lettering and raised locator dots, a large high-contrast screen with adjustable fonts and headphones.

Children's Products

Since 1990, the Company has successfully sold children's versions of its reference products. In 1997, the Company introduced a new line of children's products which includes the Homework Wiz electronic dictionary with a text-to-speech voice synthesizer enabling the product to speak words and definitions.

The Holy Bible

Franklin's electronic Holy Bible is a handheld edition of the entire text of the Holy Bible, which allows for retrieval of text by searches based on single words, word groups or synonyms. For example, a search for the words "valley" and "shadow" will retrieve the Twenty-third Psalm. Because of its built-in ability to conduct full-text word searches, the Franklin Bible is a fully automated concordance. The Company sells the Bible on its BOOKMAN platform and on cards designed for use with its BOOKMAN platform as well as other formats. The Company sells both the King James and the New International versions of the Bible as well as a Bible Dictionary and Bible Concordance.

Entertainment Titles

The Company sells a variety of crossword puzzle solvers in both U.S. and British English, which provide correct spelling for over 250,000 words and phrases from Merriam-Webster's Official Crossword Puzzle Dictionary for use by word puzzle enthusiasts. In 2004, the Company began to sell a new handheld version of the Official Scrabble® Players Dictionary. In 2005, the Company plans to sell backgammon, some casino style games, and a Jokebook to a third party OEM customer.

Seiko® Products

In April 2003, the Company began to distribute handheld reference products in North America under the Seiko® trademark. The Company currently distributes eight Seiko products, primarily dictionaries and translators. In June 2004, the Company entered into agreements with Seiko Instruments, Inc. ("SII"), for SII to distribute Franklin branded reference products in Asia and for the Company to distribute Seiko branded reference products in Europe and Australia. The Company and SII have also agreed to work together to establish common development architectures. The Company intends to begin distribution of those products in the European

Community in 2005 and Australia in 2004. The agreements provide for SII to purchase from Franklin a minimum of \$20,000,000 in Franklin reference products for the Japanese markets over a five year period commencing in the summer of 2005.

The agreements also provide for Franklin to continue purchasing Seiko® reference products for distribution in North America for the five years ending March 31, 2009 with a minimum purchase guarantee of \$14,000,000 during the period. For the fiscal year ended March 31, 2004, the Company purchased \$2,734,000 of Seiko® reference products.

International Titles

The Company has developed and produced British English versions of its American English electronic reference products for international markets, particularly the United Kingdom and Australia. The Company has monolingual electronic reference products for the French market and bilingual products for the German-speaking market. The Company has omnibus agreements for publishing electronic reference products with two major European publishers, Ernst Klett International and SEJER, formerly Vivendi Universal, under which Franklin has developed titles in handheld electronic platforms and ROM cards. Vivendi Universal publishes dictionaries, thesauruses, encyclopedias and other works under the following well known trademarks: Le Robert, Larousse and Chambers.

Linguistic Technology

Through its Proximity Technology division, the Company designs linguistic software that performs spelling error detection and correction, thesaurus and dictionary functions in conjunction with databases of words in 20 languages and dialects. The Company licenses this software for use in computers of all sizes, as well as on the Internet.

Electronic Organizers

In 1997, the Company began to sell a line of organizers and databanks under the ROLODEX® Electronics trademark which had been licensed by the Company late in 1996. Since acquiring the ROLODEX® Electronics product line, the Company has updated and improved both low priced databanks that allow users to store and retrieve names and telephone numbers and more advanced personal organizers, that can interface with desktop PCs.

Translators

The Company has developed and sells a line of handheld two way translator devices that incorporate a comprehensive list of English words and phrases useful to the traveler, with translations for each word and phrase in one or more of the following languages: Spanish, French, German, Italian, and a variety of Eastern European and Asian languages. Translations are provided by these devices either visually on a display screen or by audible output.

Internet Enabled Content

The Company offers 17,000 titles including versions of certain reference works from its website, franklin.com, for downloading to its own handheld devices and those using the Palm OS operating system, Pocket PC Windows CE operating system, and Symbian operating system.

RESEARCH AND DEVELOPMENT

The Company has a group of approximately thirty-six persons that perform research and development relating to new electronic products as well as improvements to existing products. The Company focuses its hardware development efforts on creating new platforms.

The Company maintains a full-time internal development group of hardware and software engineers dedicated to the critical function of developing proprietary microprocessors and VLSIs that integrate the Company's proprietary microprocessor or general purpose microprocessors and custom design circuits for electronic products. Through this extensive effort, the Company is able to reduce the cost of components for its platforms and cards on an ongoing basis. The Company regularly engages in programs to redesign its platforms and to develop new VLSIs for its products. The Company relies on its team of software engineers to develop new products and has also contracted for software development work in Europe, Russia, India and the Far East.

MANUFACTURING

The Company arranges for the assembly of its products by placing purchase orders with established third-party manufacturers in China, Malaysia and Thailand. The Company believes that it could locate alternate manufacturers for its products if any of its current manufacturers is unable, for any reason, to meet the Company's needs.

The Company designs certain custom integrated circuits, which are manufactured by third parties for use in the Company's products. Franklin also creates the mechanical, electronic and product design for its hardware platforms and designs and owns the tools used in the manufacture of its products. The Company's electronic products are based on the Company's proprietary microprocessor or general purpose microprocessors and custom-designed ROM chips and general purpose static random access memory chips. The Company designs VLSIs that integrate its proprietary or general purpose microprocessors and custom-designed circuits in order to reduce the cost of the components in its platform. In order to minimize the effect of any supplier failing to meet the Company's needs, the Company generally attempts to source these parts from multiple manufacturers. In those cases where the Company chooses to use a single source for economic reasons, alternative suppliers are generally available.

The Company utilizes its office in Hong Kong to facilitate component procurement, manufacturing, and quality control. On-site quality control inspection of electronic products is conducted by its employees in China, Malaysia and Thailand. The Company's products are generally shipped at the Company's expense to its facility in New Jersey, where the Company maintains inspection, quality control, warehousing and repair operations for distribution in the United States, and to similar facilities in Europe and elsewhere for its foreign operations.

SALES AND MARKETING

Franklin's products are marketed domestically through the Company's own sales and marketing force, through independent sales representative organizations, which are supervised by the Company's internal sales department, and through third party alliances.

Consumer Sales

Franklin's products are sold in approximately 30,000 retail establishments in the United States. These are comprised of mass market retailers, discount chains, bookstores, independent electronic stores, department stores and catalog companies such as The Sharper Image, Brookstone, and Heartland. The Company mails approximately 1,700,000 print catalogs each year to consumers and educational buyers for mail order sales. Consumers can also order products directly from Franklin by calling 1-800-BOOKMAN or by visiting the Company's website at franklin.com. The Company sells through several large retail chains, including Radio Shack, Staples, Wal-Mart, Office Depot, Target, Office Max, Rite Aid, and Best Buy.

Franklin commonly participates in and provides financial assistance for its retailers' promotional efforts, such as in-store displays, catalog and general newspaper advertisements. The Company promotes its products with advertisements in magazines and newspapers. The Company also promotes its products at trade shows, including the Consumer Electronics Show, and advertises in trade magazines and on regional television and radio.

International Sales

The Company sells its products worldwide through its wholly-owned local subsidiaries and a network of independent distributors. Franklin has subsidiaries in the United Kingdom, France, Canada, Germany, Belgium, Mexico and Australia, that market and distribute the Company's products, including those specifically developed for these markets.

OEM Markets and Licensing Efforts

The Company produces custom products for and licenses technologies to third parties. The Company has developed custom products including a speaking version of the *alMawrid*, an Arabic-English bilingual dictionary for sale in the Middle East and an Oxford English-Hebrew Dictionary. The Company continues to pursue opportunities for custom versions of its products. The Company also licenses its technology to preeminent companies such as Adobe Systems, MacroMedia, Ademco (a division of Honeywell), and Mobile Digital Media, a spin-off of Palm, Inc.

PATENTS, TRADEMARKS AND COPYRIGHTS

The Company owns more than twenty United States utility and design patents on its electronic reference products and a number of international patents on its products. The Company actively pursues the acquisition and enforcement of patent rights and, in furtherance thereof, maintains an ongoing program to apply for and prosecute patent applications and to enforce its rights in patents that issue therefrom.

Franklin owns certain trademark rights, including "Franklin®", "BOOKMAN®", "Spelling Ace®", "Wordmaster®", "Next Century®" and "Language Master" and has an exclusive license for the mark ROLODEX® Electronics in the United States and various foreign countries.

Copyrights to certain word lists incorporated in the Company's electronic books are the property of the Company's licensors. The Company owns copyrights in certain programs, word lists, and algorithms used in its electronic books.

COMPETITION

The Company is the market leader in the United States for handheld reference books. The Company faces various degrees of competition at different price points in the United States consumer market. The Company has a leading position in the European market where its main competitors include Lexibook, Hexaglot, Casio, Sharp and Seiko.

Competitive factors for electronic reference products are product quality and reliability, functionality, price, performance, speed of retrieval, quality of underlying databases, quality of spelling correction, portability, marketing and distribution capability, service and corporate reputation. The Company believes it is the leader in respect of each such factor.

The Company's reference products enjoy a reputation for quality resulting from their content, hardware design and easy-to-use software applications. The Company's reference products are characterized by their capacity to permit the user to define the kind of information being sought and to provide information responsive to the user's request.

Sharp Electronics, Casio, and Royal are the Company's primary competitors in electronic organizers. Competitive factors for electronic organizers and personal computer companion products are size, product quality and reliability, functionality, price, performance, marketing and distribution capability and corporate reputation. The Company believes that it competes effectively in the electronic organizer market in respect of each of these factors.

A number of prominent electronics manufacturers, including Palm, Sony, Sharp Electronics, Casio, and Royal, market palmtop personal organizer products, personal digital assistants, electronic books, computer peripherals, or general usage personal computers that offer varying degrees of electronic reference capabilities and personal information management functions. Many competitors in this market have greater capital, research and development, marketing and distribution resources than the Company and there can be no assurance that the Company can successfully compete in this market

EMPLOYEES

As of June 4, 2004, the Company employed approximately 145 persons in the United States, 27 persons in Asia, and 44 persons in international sales and marketing subsidiaries. None of the Company's employees is represented by a union. The Company believes its relations with its employees are satisfactory.

ITEM 2. PROPERTIES

The Company owns a 90,000 square foot corporate headquarters building in Burlington, New Jersey. The Company believes this facility will satisfy its foreseeable needs for office, laboratory and warehousing space.

ITEM 3. LEGAL PROCEEDINGS

In October 2003, the Company settled the litigation in Belgium brought one year earlier that was based on a third party claim against its local operating subsidiary relating to the sale of certain products incorporating medical databases. The claimant had asked for injunctive relief and damages approximating 2.8 million euros. As a result of the settlement, all claims against the Company and its operating subsidiary have been released without payment of any settlement amount by the Company and the claimant has agreed to pay 14,950 euros to the Company in consideration for the Company's provision of four quarterly updates to such medical databases.

The Company is subject to other litigation from time to time arising in the ordinary course of its business. The Company does not believe that any such litigation is likely, individually or in the aggregate, to have a material adverse effect on the financial condition of the Company.

ITEM 4. SUBMISSION OF MATTER TO A VOTE OF SECURITY HOLDERS

NONE

PART II

ITEM 5. *MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES*

The Company's common stock is traded on the American Stock Exchange (the "AMEX") under the symbol "FEP." The following table sets forth the range of the high and low closing sales prices as reported by the AMEX, as applicable, for the last two fiscal years:

<u>Quarter Ended</u>	<u>Sales</u>	
	<u>High</u>	<u>Low</u>
June 30, 2002	2.23	1.20
September 30, 2002.	1.55	.90
December 31, 2002	2.73	1.10
March 31, 2003	2.92	1.63
June 30, 2003	4.52	1.95
September 30, 2003.	5.05	2.74
December 31, 2003	3.97	2.65
March 31, 2004	4.44	3.10

The approximate number of holders of record of the common stock as of June 15, 2004 was 770.

The Company has not declared cash dividends on the common stock and does not have any plans to pay any cash dividends on the common stock in the foreseeable future. The Board of Directors of the Company anticipates that any earnings that might be available to pay dividends on the common stock will be retained to finance the business of the Company and its subsidiaries.

ITEM 6. SELECTED FINANCIAL DATA

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (in thousands)

Overview

Franklin Electronic Publishers, Incorporated ("Franklin" or the "Company") designs, develops, publishes and distribute electronic information on handheld devices, memory media cards, and via internet downloads.

Pretax income for the year ended March 31, 2004 increased to \$1,811 from \$1,448 in the prior year mainly due to improved gross margins and lower interest expense. Net income was \$1,652, or \$.15 per share, for the year ended March 31, 2004, compared with net income of \$2,301, or \$.24 per share, in the prior year. Prior year net income included \$966 from the recovery of taxes from the previous year.

For the year ended March 31, 2003, net income was \$2,301, or \$.24 per share, which included \$1,377 from the extension of a three-year software licensing agreement, \$966 from a recovery of prior year taxes, and \$700 from legal settlements offset by legal expenses of approximately \$900, \$510 of severance accruals, \$482 of depreciation and amortization related to the Company's new computer system, and a loss of approximately \$600 in the Company's Mexican subsidiary.

For the year ended March 31, 2002, the Company incurred a net loss of \$26,636, or \$3.38 per share. The 2002 loss resulted primarily from a loss of \$14,825 from the Company's eBookMan® operations, including a write down of inventory and certain other assets of \$9,900, a non cash charge of \$11,147 for impairment of the value of the ROLODEX® Electronics trademark, severance accruals of \$478, consolidation and restructuring costs of European subsidiaries of \$510, and a prior year tax assessment in a Belgian subsidiary of \$286.

Results of Operations

The following table summarizes the Company's historical results of operations as a percentage of sales for fiscal years 2004, 2003, and 2002 (in thousands):

	Year Ended March 31,		
	2004	2003	2002
Sales:			
Domestic	\$42,632	\$47,301	\$46,657

Year Ended March 31, 2004 Compared With Year Ended March 31, 2003

Sales of \$61,836 for the year ended March 31, 2004 decreased by \$3,756, (5.7%) from sales of \$65,592 in the prior year. Last year's sales benefited from revenue of \$1,573 from the extension of a three-year software licensing agreement and eBookMan closeout sales that were \$2,210 higher than the current year sales. The remainder of the sales decrease in the twelve months ended March 31, 2004 is primarily attributable to lower sales to US retailers of reference and ROLODEX® Electronics products of \$2,180 and \$2,130 respectively, partially offset by sales of \$3,844 of Seiko® products which the Company began distributing in April 2003.

While the gross margin percentage for the year ended March 31, 2004 increased to 48% of sales from 45% of sales in the prior year, margin dollars decreased by \$99 to \$29,530 in the current year from \$29,629 in the prior year. The higher percentage resulted in additional gross margin of \$1,598, which was more than offset by the decrease of \$1,697 of margin due to the decrease in sales from the prior year. The higher margin percentage is primarily attributable to the Company's European subsidiaries as their revenues benefited from the strengthening Euro and British pound while their cost of sales remained fixed in US dollars.

Total operating expenses for the year ended March 31, 2004 decreased by \$124 to \$27,370 from \$27,494 in the prior year. Sales and marketing expense increased by \$68 to \$17,166 (28% of sales) from \$17,098 (26% of

sales). Variable selling expenses such as commissions, cooperative advertising and freight decreased by \$160, \$252 and \$253 respectively due to lower sales and consulting expense decreased by \$78 due primarily to higher market research expense in the prior year. These decreases were partially offset by higher trade advertising and promotions of \$143 and higher personnel costs of \$460 in the current year. The increased personnel costs were due in part to an increase of \$178 in the cost of medical benefits over the prior year. In addition, the prior year benefited from the reversal of approximately \$200, upon settlement, of a tax accrual related to fiscal 2002 operations in Belgium. Research and development expense for the year ended March 31, 2004 declined by \$161 from \$3,385 (5% of sales) to \$3,224 (5% of sales) due to the reassignment of personnel to the software development function which increased software capitalization by \$911 to \$1,643 of which \$626 related to the Company's new Unified Architecture project. The higher software capitalization was partially offset by an actual spending increase of \$751 primarily due to higher consulting expense of \$319 and increased personnel costs of \$516 due in part to higher medical benefit costs of \$121. General and administrative expense decreased by \$31 to \$6,980 (11% of sales) compared with \$7,011 (11% of sales) in the prior year. Lower consulting expense of \$196 (primarily related to the Company's ERP system), lower legal expense of \$653 and reduced travel expense of \$103 were partially offset by increased medical benefit costs of \$157 and higher bad debt expense \$123. In addition, the prior year benefited from \$700 of legal settlements.

Interest expense, net was \$452 for the year ended March 31, 2004 compared with \$424 in the prior year. Interest expense decreased to \$484 from \$721 in the same period last year because of lower amounts of debt outstanding and a reduction in interest rates, while the prior year benefited from interest income of \$266 on income tax refunds.

Other, net was a gain of \$103 in the current year compared with a loss of \$263 in the prior year. The current year consisted of a loss on the Company's hedging program of \$467 which was more than offset by a gain of \$483 related to the current and anticipated repatriation of funds from the Company's foreign subsidiaries and equity income of \$87 on the Company's 25% investment in MobiPocket. The loss of \$262 in the prior year was due to a loss of \$694 on the Company's hedging program partially offset by gains of \$319 on the repatriation of funds from the Company's foreign subsidiaries and a gain of \$100 on the Company's sale of its controlling interest in VPTI.

The Company maintains a program of selling Euros at current rates for future settlement in order to protect the dollar value of sales generated by foreign subsidiaries. Gains or losses on these contracts are offset primarily by the effect of the foreign exchange rate changes on the underlying transactions.

Year Ended March 31, 2003 Compared With Year Ended March 31, 2002

Sales of \$65,592 for the year ended March 31, 2003 decreased by \$5,433 (7.6%) from sales of \$71,025 in the prior year. The decrease is primarily attributable to a decrease of \$4,924 in worldwide ROLODEX® Electronics sales and lower reference product sales of \$1,322 in the US and \$907 in Germany. These declines were partially offset by revenue of \$1,573 from the extension of a three-year software licensing agreement. The decline in ROLODEX Electronics sales was due in part to the absence of hypermarket sales in Germany (approximately \$2,000 in the prior year) and a decline in US sales of \$2,112 because of weakness in the organizer market. Overall sales were impacted by the soft consumer economy, which was affected by the war in Iraq and unusually poor weather.

Gross margin increased to \$29,629, or 45% of sales, from \$20,441, or 29% of sales, in the prior year. The increase in gross margin was primarily due to the inclusion in fiscal 2002 of provisions for eBookMan inventory, related product costs and price protection totaling \$9,052 (12%). The gross margin in fiscal 2003 benefited from the extension of a three-year software licensing agreement that had a margin of \$1,377, or 88%, and a more favorable sales mix, with higher margin reference products comprising 83% of sales in the year ended March 31, 2003 compared with 79% of sales in the prior year. These gains were partly offset by lower sales, which reduced gross margin by approximately \$2,400.

In the year ended March 31, 2002, the Company recorded a non-cash charge of \$11,147 for the impairment in the value of its ROLODEX trademark (see note 2). Without regard to this charge, operating expenses for the year ended March 31, 2003 decreased by \$6,458 to \$27,494 from \$33,952 in the prior year.

Sales and marketing expense decreased by \$5,155 to \$17,098 (26% of sales) from \$22,253 (31% of sales) primarily because of a reduction in expenses for the eBookMan product line of \$3,156 in fiscal 2003, a decrease in commission expense of \$359, lower market development advertising of \$483, lower staffing costs of \$453 due primarily to severance expense in the prior year and reduced amortization expense of \$389 as a result of the adoption of FASB 142, *Goodwill and Other Intangible Assets* (see note 7). Research and development expense decreased by \$1,144 from \$4,529 (6% of sales) to \$3,385 (5% of sales). The decrease resulted from lower research and development expenditures of \$1,434 in support of the eBookMan product line, partially offset by higher personnel costs of \$353 in fiscal 2003. General and administrative expense decreased to \$7,011 (11% of sales) compared with \$7,170 (10% of sales) in the prior year primarily resulting from lower expenses of \$475 relating to eBookMan and expenses of \$543 recorded in prior year related to the reorganization of the Company's European subsidiaries. These decreases were offset in part by increased depreciation and amortization of \$482 relating to the Company's new ERP system increased legal fees of \$738 offset by the Company's recovery of approximately \$700 and higher staffing costs \$225. The increased staffing costs resulted mainly from increased severance charges in fiscal 2003 of \$436 offset in part by lower staffing costs of \$233 at the Company's European subsidiaries.

Interest expense, net decreased to \$424 from \$1,259 in fiscal 2002 because of lower amounts of debt outstanding and a reduction in interest rates paid as all of the Company's borrowings in the 2003 fiscal year were under its secured financing facility with an average interest rate of 6% while \$10,404 of prior year debt consisted of Senior Notes with an interest rate of 12 1/2%.

Other, net was a loss of \$263 for the year ended March 31, 2003 compared with a loss of \$719 in the prior year. The loss of \$263 consisted of a loss of \$694 on the Company's hedging program which was partly offset by recognized gains of \$319 on the repatriation of funds from the Company's foreign subsidiaries and a gain of \$100 on the sale of the Company's approximately 82% interest in Voice Powered Technology, Inc. The prior year loss of \$719 consisted primarily of a loss on the Company's hedging program of \$91 and a loss on the repatriation of funds from the Company's foreign subsidiaries of \$604.

The Company maintains a program of selling Euros at current rates for future settlement in order to protect the dollar value of sales generated by foreign subsidiaries. The loss realized on the program is offset by higher revenue in dollars from the Company's European sales.

Inflation and Currency Transactions

Inflation had no significant effect on the operations of the Company for the three years ended March 31, 2004. However, competitive pressures and market conditions in the future may limit the Company's ability to increase prices to compensate for general inflation or increases in prices charged by suppliers.

The Company's operating results may be affected by fluctuations in currency exchange rates. During the years ended March 31, 2002, 2003 and 2004, the Company entered into several foreign exchange forward contracts with financial institutions to limit its exposure to currency fluctuation loss on sales made by its European subsidiaries.

Seasonality

The Christmas selling season (October, November and December) and the “back to school” season (August to mid-September) are the strongest selling periods at retail for the Company’s products.

The following table sets forth unaudited net sales for each of the Company’s last twelve fiscal quarters:

	Quarter Ended June 30	Quarter Ended September 30	Quarter Ended December 31	Quarter Ended March 31
	(dollars in thousands)			
Fiscal 2004	\$14,983	\$15,671	\$18,873	\$12,309
Fiscal 2003	16,517	21,054	18,764	9,257
Fiscal 2002	16,009	18,714	23,284	13,018

Future Income Tax Benefits

The Company has income tax benefits of \$18,352 which can be utilized against future earnings and has provided an income tax valuation allowance of \$12,652 against these tax assets. The remaining \$5,700 balance represents the amount that the Company believes that it can reasonably expect to utilize in the foreseeable future.

Changes in Financial Condition

Accounts receivable increased by \$531 to \$7,110 on March 31, 2004 from \$6,579 on March 31, 2003 primarily because of an increase in sales of \$3,052 during the March 2004 quarter compared with the March 2003 quarter. Inventory decreased by \$3,602 to \$8,407 on March 31, 2004 from \$12,009 on March 31, 2003 due primarily to the implementation of the Company’s inventory reduction program. The balance of the Company’s borrowings under its credit facility decreased by \$3,759 from March 31, 2003 as the cash generated from operations was used to pay down the outstanding balance.

Off-Balance Sheet Arrangements

The Company has no off-balance sheet arrangements.

Liquidity and Capital Resources

The Company had cash and cash equivalents of \$2,217 and borrowings under its credit facility of \$2,375 million at March 31, 2004 compared with \$1,459 and \$6,134 respectively at March 31, 2003.

During the year ended March 31, 2002, the Company paid all of its 12½% Senior Notes outstanding in the amount of \$10.4 million.

In December 1999, the Company entered into a \$25,000 secured financing facility which originally was scheduled to expire on December 7, 2002. In January 2002 the maturity of the secured financing facility was extended to December 7, 2004. Borrowings under the revolving credit facility bear interest at the bank’s prime rate (4.0% at March 31, 2004) plus ¾%, and the real property and equipment advances under the facility in the amount of \$3,208 bear interest at the rate of prime plus 1½%. The facility contains certain financial covenants and restrictions on indebtedness, dividend payments, business combinations, and other related items. As of March 31, 2004, no amounts were available for paying dividends. Borrowings are collateralized by substantially all assets of the Company. As of March 31, 2004, the Company had an aggregate outstanding balance of \$2,375 under the secured financing facility consisting of the real property and equipment loans of \$3,208 reduced by a debit balance of \$833 in the revolving credit facility, and is in compliance with all covenants. During the year ended March 31, 2004, the Company paid down \$3,759 of the secured financing facility. The Company is currently considering proposals from several institutional lenders to replace its financing facility before its December expiration.

The Company relies primarily on its revolving credit facility to supplement operating cash flow to meet its financing needs. The amount of credit available under the facility at any time is based upon a formula applied to the Company's accounts receivable, inventory, real estate, and certain capital equipment. As of March 31, 2004, there was credit available of \$9,656, of which \$2,375 was drawn down and \$7,281 was available. The Company's credit availability and borrowings under the facility fluctuate during the year because of the seasonal nature of the business. During the year ended March 31, 2004, maximum availability and borrowings under the facility approximated \$16,800 and \$10,500 respectively. The Company does not have any significant capital leases and anticipates that depreciation and amortization for fiscal 2005 will exceed planned capital expenditures.

Critical Accounting Policies and Estimates

Management's discussion and analysis of financial condition and results of operations are based upon the Company's consolidated financial statements which have been prepared in accordance with accounting principles generally accepted in the U.S. The preparation of these financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosures. On an ongoing basis, the Company evaluates its estimates and judgments based on historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. The Company annually reviews its financial reporting and disclosure practices and accounting policies to ensure that its financial reporting and disclosures provide accurate and transparent information relative to the current economic and business environment. The Company believes that of its significant accounting policies (see summary of significant accounting policies more fully described in Note 2 of notes to consolidated financial statements), the following policies involve a higher degree of judgment and/or complexity:

eBookMan assets—The Company reviewed its eBookMan assets relative to historical and economic factors and industry trends during the year ended March 31, 2002. In that year the Company recorded a write-down of eBookMan assets in the amount of \$9,874. As of March 31, 2002, 2003 and 2004, the Company had remaining inventory of eBookMan products with a carrying value of approximately \$1,500, \$319 and \$71 respectively. All other assets pertaining to eBookMan have been written off.

Asset Impairment—In assessing the recoverability of the Company's fixed assets, goodwill and other non-current assets, the Company considers changes in economic conditions and makes assumptions regarding estimated future cash flows and other factors. During the year ended March 31, 2002, the Company recorded a charge for impairment in value of its ROLODEX® Electronics trademark of \$11,147.

The Company adopted SFAS No. 142 at the beginning of April 2002 for all goodwill and other intangible assets recognized in the Company's statement of financial position as of April 1, 2002. This standard changes the accounting for goodwill from an amortization method to an impairment-only approach and introduces a new model for determining impairment charges. The Company's intangible assets are carried at the lower of cost less amortization through March 31, 2002, or fair value as of March 31, 2004. The implementation of this standard reduced amortization expense by \$300 for the year ended March 31, 2004. The Company no longer amortizes goodwill.

Contractual Obligations

The table below lists the Company's contractual obligations as of March 31, 2004.

	Payment due by period				
	Total	Less than 1 year	1 - 3 years	3 - 5 years	More than 5 years
Short-term debt obligations	\$ 2,375	\$ 2,375	—	—	—
Capital lease obligations	8	7	\$ 1	—	—
Operating lease obligations	1,335	485	660	\$190	—
Purchase obligations	9,523	9,523	—	—	—
Other Long-term	1,298	40	80	80	\$1,098
Total	\$14,539	\$12,430	\$741	\$270	\$1,098

The purchase obligations consist primarily of purchase orders for inventory used in the Company's normal course of business.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

Interest on the Company's Borrowing under its secured financing facility fluctuates with the prime rate. A variation of 1% in the prime rate during the year ended March 31, 2004 would have affected the Company's earnings by approximately \$65,000.

Foreign Currency Risk

The Company is subject to currency exchange rate risk for the assets, liabilities and cash flows of its subsidiaries that operate in foreign countries, primarily in Europe and the United Kingdom. The Company maintains a program of selling forward exchange contracts to limit its exposure to fluctuations in the value of foreign currencies. Gains or losses on these contracts are offset primarily by the effect of foreign exchange rate changes on the underlying transactions.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Shareholders and Directors of
Franklin Electronic Publishers, Incorporated
Burlington, New Jersey 08016

We have audited the accompanying consolidated balance sheets of Franklin Electronic Publishers, Incorporated and subsidiaries as of March 31, 2004 and March 31, 2003 and the related consolidated statements of operations, shareholders' equity and cash flows for each of the three years ended March 31, 2004. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Franklin Electronic Publishers, Incorporated and subsidiaries as of March 31, 2004 and March 31, 2003, and the results of its operations and cash flows for each of the three years ended March 31, 2004 in conformity with U.S. generally accepted accounting principles.

FRANKLIN ELECTRONIC PUBLISHERS, INCORPORATED AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except share and per share data)

1. LINE OF BUSINESS

Franklin Electronic Publishers, Incorporated and its wholly-owned subsidiaries (the "Company") design, develop, publish, and distribute electronic information on handheld devices, memory media cards and via internet downloads. Other activities represent less than 5% of sales and identifiable assets.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation:

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, after elimination of intercompany accounts and transactions. The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Inventories:

Inventories are valued at the lower of cost or market determined by the first-in, first-out method of accounting.

Property and Equipment:

Property and equipment are stated at cost and are depreciated using the straight-line method over the estimated useful lives of the assets, ranging from three to five years for furniture, equipment, tooling and computer software purchased and 40 years for building and improvements.

Leasehold improvements are amortized over the term of the lease or the estimated life of the improvement, whichever is shorter. When assets are sold or retired, their cost and related accumulated depreciation are removed from the appropriate accounts. Any gains or losses on dispositions are recorded in current operations. Maintenance and minor repairs are charged to operations as incurred.

Trademark and Goodwill:

The ROLODEX® Electronics trademark is carried at fair value, which was determined by the discounted cash flow method. Goodwill of purchased businesses is recorded at the lower of cost less amortization through March 31, 2002 or fair value.

Accounting for Long-Lived Assets:

The Company reviews long-lived assets, certain identifiable assets and any goodwill related to those assets for impairment at least annually or whenever circumstances and situations change such that there is an indication that the carrying amounts may not be recoverable. To the extent carrying values have exceeded fair values, an impairment loss has been recognized in operating results. During the year ended March 31, 2004 the Company recorded no impairment in the value of its long-lived assets.

Other Assets:

Other Assets primarily consist of the Company's Enterprise Resource Planning Software, the components of which are being amortized over useful lives of 3 to 10 years.

FRANKLIN ELECTRONIC PUBLISHERS, INCORPORATED AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

(In thousands, except share and per share data)

Freight Billed:

The Company recognizes amounts billed to customers in sales transactions for shipping and handling as revenue earned for the goods provided and it classifies it as sales revenue.

Revenue:

The Company recognizes revenue when it is realized. The Company considers revenue realized when the product has been shipped or the services have been provided to the customer, and collectibility is reasonably assured. The Company's sales are made with right of return or exchange for defective products generally within one year from the original retail purchase. Revenue is reduced for estimated customer returns and other allowances.

The Company maintains a policy of providing price protection to its dealers under which the Company issues credits in the event it reduces its prices. These credits are generally computed by multiplying the number of units on hand at retail at the time of the price reduction by the dollar amount of the price reduction. A provision for the related reduction in sales is made at such time as the Company determines that a price reduction will be effective or is reasonably anticipated.

Software Development Costs:

The capitalization of software development costs and the related amortization is in accordance with Statement of Financial Accounting Standards ("SFAS") No. 86, *Accounting for the Costs of Computer Software to be Sold, Leased or Otherwise Marketed*. Software costs, which are capitalized after technological feasibility is established, totaled \$1,643, \$732 and \$1,083 for the fiscal years ended March 31, 2004, 2003, and 2002, respectively.

Amortization included in the accompanying Consolidated Statement of Operations for fiscal years ended March 31, 2004, 2003, and 2002, was \$1,115, \$1,297, and \$4,034, respectively. Amortization for the year ended March 31, 2002 included a write-down of eBookMan® related costs of \$1,760.

Advertising Costs:

Advertising costs are expensed as incurred except for direct response advertising, the costs of which are deferred and amortized over the period the related sales are recorded.

Fair Value of Financial Instruments:

The carrying amounts reported in the balance sheet for cash, trade receivables, accounts payable and accrued expenses approximate fair value based on the short-term maturity of these instruments. The carrying amount of the Company's borrowings under its revolving credit facility approximates fair value.

Foreign Currency Translation:

For operations outside of the United States that prepare financial statements in currencies other than the US dollar, the Company translates statement of operations amounts at average monthly exchange rates, and translates assets and liabilities at year-end exchange rates. The Company presents translation adjustments as a component of "Foreign currency translation adjustment" within shareholders' equity. Gains and losses from foreign currency transactions are included in results of operations.

FRANKLIN ELECTRONIC PUBLISHERS, INCORPORATED AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

(In thousands, except share and per share data)

As of March 31, 2004 the Company had two outstanding foreign exchange contracts entered into with a financial institution to limit its exposure to loss, resulting from fluctuations in the value of the Euro. The durations of these contracts do not exceed one year. The Company had an unrealized loss of \$27 on these contracts as of March 31, 2004, which was recorded during the year. As of March 31, 2003 the Company had one outstanding contract with an unrealized loss of \$110 which was recorded during that year. The amount of the contracts outstanding at the end of March 31, 2004 and 2003 was 3 million and 1.5 million euros respectively.

Income Taxes:

The Company utilizes the liability method of accounting for income taxes. Under the liability method, deferred taxes are determined based on the difference between the financial statement and tax basis of assets and liabilities using tax rates in effect in the years in which the differences are expected to reverse.

Earnings (Loss) Per Share:

Earnings (loss) per common share is computed by dividing income (loss) available to common stockholders by the weighted average number of common shares outstanding during the period. The earnings per common share computation, assuming dilution, gives effect to all potential dilutive common shares during the period. The computation assumes that the outstanding stock options and warrants were exercised and that the proceeds were used to purchase common shares of the Company.

Stock Based Compensation:

The Company accounts for stock transactions in accordance with APB Opinion No. 25, "Accounting For Stock Issued To Employees," under which the Company has elected to follow the disclosure only alternative to accounting for its stock based compensation. Accordingly, no compensation is recorded on the issuance of employee stock options at fair market value.

Reclassifications:

Certain reclassifications have been made to the prior years' financial statements to conform to the current year presentation. These reclassifications had no effect on previously reported results of operations or retained earnings.

Web Site Development Costs:

The Company accounts for web site development costs in accordance with Emerging Issues Task Force ("EITF") Issue No. 00-2, *Accounting for Web Site Development Costs*. The Company provides for the capitalization of web site development costs and amortizes the costs over its useful life.

3. CASH AND CASH EQUIVALENTS

The Company classifies as cash equivalents highly liquid investments with maturities of less than ninety days.

6. OTHER ASSETS

Other assets consist of:

	<u>March 31,</u>	
	<u>2004</u>	<u>2003</u>
Trademarks and patents	\$ 174	\$ 210
Enterprise resource planning software (net of amortization of \$1,041 and \$554)	2,455	2,943
Advance royalties and licenses	407	541
Investment in Mobipocket	643	—
Other	690	684
	<u>\$4,369</u>	<u>\$4,378</u>

MOBIPOCKET

In April 2003, the Company purchased 25% of the outstanding shares of MobiPocket.com S.A. for approximately \$525 including expenses. MobiPocket, through its software reader application, enables the reading and secured distribution of electronic content across all the major OS platforms, including Palm OS, Pocket PC OS, Symbian OS, Windows OS and the Company's proprietary operating systems.

This transaction was accounted for by the purchase method of accounting. The Company will account for the ongoing results of MobiPocket by the equity method of accounting. Through the year ended March 31, 2004 the Company recognized income of \$87 on its investment in MobiPocket. This amount is included in the caption "Other, net" on the Company's statement of operations.

7. TRADEMARK AND GOODWILL

The Company adopted SFAS No.142, *Goodwill and Other Intangible Assets*, at the beginning of April 2002 for all goodwill and other intangible assets recognized in the Company's statement of financial position. This SFAS changed the accounting for goodwill from an amortization method to an impairment-only approach, and introduces a new model for determining impairment charges.

Upon initial application of SFAS No. 142, the trademark and goodwill are deemed to have an indefinite useful life because they are expected to generate cash flows indefinitely. Thus, the Company ceased amortizing the trademark and goodwill on April 1, 2002.

The net income, earnings-per-share and amortization expense of the Company for the period of initial application and the prior period, as if SFAS 142 was applicable during the entire period, are as follows:

	Year Ended March 31,		
	2004	2003	2002
Reported net income (loss)	\$1,652	\$2,301	\$(26,636)
Add back:

Trademark amortization	—	—	389
Adjusted net income (loss)	<u>\$1,652</u>	<u>\$2,301</u>	<u>\$(26,088)</u>
Basic earnings per share:			
(a) Reported net income (loss)	\$ 0.15	\$ 0.24	\$ (3.38)
Goodwill amortization	—	—	0.02
Trademark amortization	—	—	0.05
Adjusted net income (loss)	\$ 0.15	\$ 0.24	\$ (3.31)
Diluted earnings per share:			
(a) Reported net income (loss)	\$ 0.15	\$ 0.23	\$ (3.38)
Goodwill amortization	—	—	0.02
Trademark amortization	—	—	0.05
Adjusted net income (loss)	\$ 0.15	\$ 0.23	\$ (3.31)
(a) After preferred stock dividends of \$426, \$386 and \$267 for the twelve-month periods ended March 31, 2004, 2003, and 2002, respectively.			

8. ACCOUNTS PAYABLE AND ACCRUED EXPENSES

Accounts payable and accrued expenses consist of:

	March 31,	
	2004	2003
Trade accounts payable	\$ 5,032	\$ 3,961
Accrued payroll, bonus, benefits and taxes	2,105	2,221
Accrued sales allowances	908	1,196
Accrued royalties	418	415
Accrued expenses—other	2,303	2,807
	<u>\$10,766</u>	<u>\$10,600</u>

FRANKLIN ELECTRONIC PUBLISHERS, INCORPORATED AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

(In thousands, except share and per share data)

9. LONG-TERM LIABILITIES

Long-term liabilities consist of:

	March 31,	
	2004	2003
Revolving credit facility	\$2,375	\$6,134
Other	1,306	1,355
	<u>3,681</u>	<u>7,489</u>
Less current portion	2,423	47
	<u>\$1,258</u>	<u>\$7,442</u>

The aggregate maturities of the long-term liabilities for the five years after March 31, 2004 are as follows:

Years Ending March 31,	
2005	\$2,423
2006	41
2007	40
2008	40
2009	40
Total	<u>\$2,584</u>

The Company's \$25,000 secured financing facility expires on December 7, 2004. Borrowings under the facility bear interest at the bank's prime rate (4% at March 31, 2004) plus 3/4%, and the real property and equipment advances under the facility in the amount of \$3,208 bear interest at the rate of prime plus 1 1/2%. The facility contains certain financial covenants and restrictions on indebtedness, dividend payments, business combinations, and other related items. As of March 31, 2004, no amounts were available for the payment of cash dividends. Borrowings are collateralized by substantially all assets of the Company. As of March 31, 2004, the Company had an aggregate outstanding balance of \$2,375 under the facility and is in compliance with all covenants.

During the years ended March 31, 2004 and 2003, the Company reduced borrowings under its revolving credit facility by \$3,759 and \$4,004 respectively.

10. ADVERTISING AND MEDIA COSTS

Advertising costs for the years ended March 31, 2004, 2003 and 2002 were \$4,791, \$5,031, and \$6,611, respectively. Deferrals of direct response advertising were not material.

FRANKLIN ELECTRONIC PUBLISHERS, INCORPORATED AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

(In thousands, except share and per share data)

11. COMMITMENTS

Lease Commitments:

Rent expense under all operating leases was \$786, \$750, and \$795 for the years ended March 31, 2004, 2003 and 2002, respectively. The future minimum rental payments to be made under non-cancelable operating leases, principally for facilities, as of March 31, 2004 were as follows:

Years Ending March 31,	
2005	\$ 492
2006	388
2007	272
2008	123
2009	67
Total minimum lease payments	<u>\$1,342</u>

Royalty Agreements:

The Company acquires the rights to reference works, databases and technology from various publishers and technology companies under renewable contracts of varying terms. Royalties and license fees are based on a per unit charge or as a percentage of revenue from products utilizing such databases or software licenses. The Company does not anticipate that there are any commitments that will not be earned based upon anticipated future sales.

Litigation:

The Company is subject to litigation from time to time arising in the ordinary course of its business. The Company does not believe that any such litigation is likely, individually or in the aggregate, to have a material adverse effect on the financial condition of the Company.

12. SHAREHOLDERS' EQUITY

Restricted Stock Plan and Unearned Portion of Common Stock Issued for Services:

The Company maintains a Restricted Stock Plan, which provides for the grant of shares of common stock for services. The shares are subject to a restriction on transfer, which requires the holder to remain employed by the Company for up to three years in order to receive the shares. As of March 31, 2004, 4,700 shares of common stock were available for distribution under the Plan by the Board of Directors.

Employee Stock Options:

Under the Company's 1998 Stock Option Plan, 2,500,000 shares of common stock have been reserved for issuance. The Plan authorizes the Company to grant options to purchase shares of common stock to key employees, consultants and outside directors of the Company.

The Plan provides for granting of options to purchase shares of common stock at not less than the fair market value on the date of grant for incentive stock options and at not less than 75% of the fair market value on the date of grant for non-incentive stock options. An option may not be granted for a period in excess of ten years from the date of grant. Options are not transferable by the optionee other than upon death.

FRANKLIN ELECTRONIC PUBLISHERS, INCORPORATED AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

(In thousands, except share and per share data)

Under the terms of the 1998 Plan, an employee may deliver shares of common stock as payment for options being exercised. The shares are valued at the closing price on the date of exercise.

During the year ended March 31, 2002 the Company granted 100,000 options to persons performing consulting services for the Company. The options were valued at a total of \$207 using the Black-Scholes option-pricing model with the expense being amortized over the vesting period of the options. The Company's results of operations for the years ended March 31, 2002 and 2003 included expense related to these options of \$159 and \$48 respectively.

Accounting for Employee Stock Options:

No compensation expense is recognized for options granted at fair market value in the results of operations. For disclosure purposes, the fair value of each stock option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions used for stock options granted during the years ended March 31, 2004, 2003, and 2002, respectively: annual dividends of \$0.00 for all years, expected volatility of 86.4%, 80.3%, and 85.8%, risk free interest rate of 3.1%, 3.4%, and 4.6% and expected life of five years for all grants. The number of shares granted, the weighted-average exercise price and weighted average fair value of the stock options granted during the years ended March 31, 2004, 2003, and 2002 were as follows:

	<u>Number of Shares Granted</u>	<u>Weighted- Average Exercise Price</u>	<u>Weighted- Average Fair Value</u>
Year ended March 31, 2002:			
Exercise price equals market value	399,053	\$2.22	\$1.59
Exercise price greater than market value	528,714	\$3.78	\$1.28
	<u>927,767</u>	<u>\$3.11</u>	<u>\$1.42</u>
Year ended March 31, 2003:			
Exercise price equals market value	241,335	\$1.71	\$1.16
Exercise price greater than market value	205,250	\$1.20	\$0.78
	<u>446,585</u>	<u>\$1.48</u>	<u>\$0.99</u>
Year ended March 31, 2004			
Exercise price equals market value	286,618	\$2.93	\$2.02

FRANKLIN ELECTRONIC PUBLISHERS, INCORPORATED AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

(In thousands, except share and per share data)

At March 31, 2004, the Company had two stock-based employee compensation plans, Franklin's 1988 Stock Option Plan, as amended, and Franklin's 1998 Stock Option Plan, as amended. The Company accounts for those plans under the recognition and measurement principles of APB Opinion No. 25, *Accounting for Stock Issued to Employees*, and related interpretations. No stock based employee compensation cost is reflected in net income. The following table illustrates the effect on net income and earnings per share if the company had applied the fair value recognition provisions of SFAS No. 123, *Accounting for Stock Based Compensation*, to stock-based employee compensation:

	Year ended March 31,		
	2004	2003	2002
Reported net income (loss)	\$ 1,652	\$ 2,301	\$(26,636)
Deduct:

8.50 – 10.13	179,516	4.44	\$ 9.17	178,516	\$ 9.17
11.00 – 31.63	269,691	2.61	\$15.08	269,691	\$15.08
\$ 1.20 –\$31.63	<u>2,778,636</u>			<u>1,994,613</u>	

Options exercisable and the weighted average exercise price at March 31, 2003 and March 31, 2002, were 1,870,666 options and \$7.43, and 1,214,391 options and \$9.56, respectively.

Effective March 31, 2001, the Chairman of Franklin's Board of Directors, Dr. James H. Simons, subscribed for 3500 shares of the Company's Series A 10% Convertible Preferred Stock ("Series A Preferred Stock") in consideration for the payment of \$3,500. The preferred shares are convertible into common stock at a conversion price of \$5.00 per share and bear interest at the rate of 10% per year, payable in additional shares of the Convertible Preferred Stock in June and December. Payment for the subscribed shares was received by the Company in April 2001. As of March 31, 2004, 4,579 shares of Series A Preferred Stock were outstanding.

13. INCOME TAXES

The components of the net deferred income tax asset are the following:

	March 31,	
	2004	2003
US loss carryforward—Franklin	\$13,344	\$12,735
Foreign loss and tax credit carryforward	290	177
Inventory valuation allowances	1,939	2,164
Trademark Impairment charge, net of prior amortization	2,136	2,529
Other items (taxable) deductible in future years—net	643	582
	<u>18,352</u>	<u>18,187</u>
Deferred income tax valuation allowance	<u>12,652</u>	<u>12,487</u>
	<u>\$ 5,700</u>	<u>\$ 5,700</u>

Deferred income taxes result from temporary differences between income tax and financial reporting computed at the effective income tax rate. A valuation allowance has been provided to reduce the deferred income tax asset to the amount which is expected more likely than not to be realized.

FRANKLIN ELECTRONIC PUBLISHERS, INCORPORATED AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(In thousands, except share and per share data)

The income tax provision (credit) consists of the following:

	<u>Year ended March 31,</u>		
	<u>2004</u>	<u>2003</u>	<u>2002</u>
Current			
Federal	\$255	\$(966)	—
State	(96)	100	—
Foreign	—	13	—
	<u>\$159</u>	<u>\$(853)</u>	<u>—</u>

The reconciliation of income taxes shown in the financial statements and amounts computed by applying the Federal income tax rate of 35% for the years ended March 31, 2004, 2003 and 2002 is as follows:

	<u>Year Ended March 31,</u>		
	<u>2004</u>	<u>2003</u>	<u>2002</u>
Income before income taxes	\$1,811	\$ 1,448	\$(26,636)
Computed expected tax	634	506	(9,322)
Effect of non-deductible expenses	20	50	50
Income tax refund	—	(966)	—
Foreign tax provision	—	13	—
State tax provision	(96)	100	—
Change in valuation allowance	(399)	(556)	9,272
Provision (benefit) for income taxes	<u>\$ 159</u>	<u>(\$ 853)</u>	<u>—</u>

Effective April 1, 1997, the Company filed elections with the Internal Revenue Service to treat most of its foreign subsidiaries as divisions of the parent for U.S. income tax reporting.

The loss carry forward and expiration date are as follows:

	<u>Amount</u>	<u>Expiration Date</u>
United States	\$35,000	2019

14. OPERATIONS

Under SFAS No. 131, *Disclosure about Segments of an Enterprise and Related Information*, the Company's operations are treated as one operating segment, as it only reports profit and loss information on an aggregate basis to the chief operating decision maker of the Company. Information about the Company's product sales and major customers are as follows:

	<u>March 31,</u>		
<u>Product Sales</u>	<u>2004</u>	<u>2003</u>	<u>2002</u>
Reference	\$51,987	\$54,534	\$55,939
ROLODEX® Electronics	4,488	6,726	11,652
eBookMan	583	2,793	2,471
Seiko	3,849	—	—
Other	929	1,539	963
Total Sales	<u>\$61,836</u>	<u>\$65,592</u>	<u>\$71,025</u>

FRANKLIN ELECTRONIC PUBLISHERS, INCORPORATED AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

(In thousands, except share and per share data)

Approximate foreign sources of revenues including export sales were as follows:

<u>Product Sales</u>	<u>March 31,</u>		
	<u>2004</u>	<u>2003</u>	<u>2002</u>
Europe	\$12,964	\$12,821	\$17,255
Other International	6,240	5,470	7,113

For the fiscal years ended March 31, 2004, 2003 and 2002, no customer accounted for more than 10% of the Company's revenues.

For the fiscal year ended March 31, 2004, four suppliers accounted for more than 10% of the Company's purchases of its inventory. The four suppliers individually accounted for 18%, 17%, 15% and 13% of inventory purchases. For the fiscal year ended March 31, 2003, three suppliers accounted for more than 10% of the Company's purchases of its inventory. The three suppliers individually accounted for 27%, 16%, and 12% of inventory purchases.

EBOOKMAN ASSETS

For the years ended March 31, 2004 and 2003 the Company recognized revenue of \$583 and \$2,793 respectively from sales of the discontinued eBookMan product. The net carrying value of the eBookMan inventory at March 31, 2004 was \$71 compared with \$319 in the prior year.

For the year ended March 31, 2002 the Company lost \$14,825 from its eBookMan operations as poor market performance of the product led to the revaluation of assets. The loss for the year ended March 31, 2002 included inventory write-downs of \$6,265, write-off of capitalized software development costs, royalties, licenses, and other assets of \$3,179 and accrued price protection of \$430.

15. RECENT ACCOUNTING PRONOUNCEMENTS

In January 2003, the Financial Accounting Standards Board ("FASB") issued Interpretation No. 46 (R), "Consolidation of Variable Entities" (FIN 46), an interpretation of Accounting Research Bulletin No. 51. FIN 46 requires that variable interest entities be consolidated by a company if that company is subject to a majority of the risk and loss from the variable interest entity's activities or is entitled to receive a majority of the entity's residual returns or both. FIN 46 requires disclosures about variable interest entities that companies are not required to consolidate but in which the company has a significant variable interest. The consolidation requirements apply for financial statement periods ending after March 14, 2004. The adoption of FIN 46 did not have a material impact on our financial statements.

In April 2003, the FASB issued Statement of Financial Accounting Standards No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities" (SFAS 149), an amendment to Statement of Financial Accounting Standards No. 133. SFAS 149 clarifies under what circumstances a contract with initial investments meets the characteristics of a derivative and when a derivative contains a financing component. SFAS 149 was effective for contracts entered into or modified after June 30, 2003. The adoption of SFAS 149 did not have a material impact on our financial statements.

In May 2003, the FASB issued Statement of Financial Accounting Standards No. 150, "Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity" (SFAS 150), which established standards for how an issuer classifies and measures in its statement of financial position certain financial

FRANKLIN ELECTRONIC PUBLISHERS, INCORPORATED AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

(In thousands, except share and per share data)

instruments with characteristics of both liabilities and equity. It requires that an issuer classify a financial instrument that is within its scope as a liability (or an asset in some circumstances) because that financial instrument embodies an obligation of the issuer. SFAS 150 is effective for financial instruments entered into or modified after May 31, 2003 and otherwise is effective at the beginning of the first interim period beginning after June 15, 2003. It is to be implemented by reporting the cumulative effect of a change in accounting principle for financial instruments created before the issuance date of SFAS 150 and still existing at the beginning of the interim period of adoption. Restatement is not permitted. The adoption of SFAS 150 did not have a material effect on our financial statements.

- A. Includes provisions in the quarter of \$4,201 for the write-down of assets and accrual of liabilities pertaining to eBookMan.
- B. After a charge in the quarter of \$11,147 for impairment in value of the ROLODEX® Electronics trademark, a charge of \$5,673 in the for write-down of eBookMan inventory and other related assets, and charges of \$1,325 for severance payments, costs of consolidation of European operations, and a prior year Belgian tax assessment.

ITEM 9. *CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE*

NONE

ITEM 9A. *CONTROLS AND PROCEDURES*

As of March 31, 2004 (the end of the period covered by this report), the Company's management carried out an evaluation, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective in timely alerting them to material information relating to the Company (including the Company's subsidiaries) required to be included in periodic reports filed under the Securities Exchange Act of 1934.

In designing and evaluating the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) of the Securities Exchange Act of 1934), management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurances of achieving the desired control objectives, as ours are designed to do, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. We believe that our disclosure controls and procedures provide such reasonable assurance.

No change occurred in the Company's internal controls concerning financial reporting during the fourth quarter ended March 31, 2004 that has materially affected, or is reasonably likely to materially affect, the Company's internal controls over financial reporting.

PART III

ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE REGISTRANT

<u>NAME</u>	<u>AGE</u>	<u>POSITION</u>
Barry J. Lipsky	53	President and Chief Executive Officer; Director
Arnold D. Levitt	67	Senior Vice President, Chief Financial Officer; Treasurer; Secretary
Kurt A. Goszyk	54	Vice President, Engineering and Chief Technology Officer

Mr. Lipsky joined the Company as Vice President in February 1985. He was elected Executive Vice President of the Company in 1997, Interim President and Chief Operating Officer in April 1999 and President and Chief Executive Officer of the Company in May 1999. Mr. Lipsky has been a Director or Managing Director of the Company's Hong Kong subsidiary since its inception in 1985. Prior to joining the Company and from 1972, Mr. Lipsky was employed by Mura Corporation of Hicksville, New York, a designer and importer of consumer electronics products and custom components. During his tenure at Mura, Mr. Lipsky held a variety of senior management positions, including product development and procurement, culminating in his election as Vice President of Operations, the position he held just prior to joining the Company.

Mr. Levitt joined the Company in May 1999 as Interim Chief Financial Officer and Treasurer and was elected Senior Vice President, Chief Financial Officer and Treasurer of the Company in September 1999. Mr. Levitt has been engaged in consulting as a chief financial officer or senior business adviser for companies in a variety of industries since 1996. Prior to these consulting arrangements, Mr. Levitt was Executive Vice President and Chief Operating Officer of WICO Gaming Supply Corp. Mr. Levitt has owned or was employed as a chief financial officer of a number of companies and also worked in public accounting.

Mr. Goszyk joined the Company in August 2002 as Vice President, Engineering, and Chief Technology Officer. Previously, he was President of Cyberscan Technologies, Inc., a developer of advanced computer peripheral devices related to optical motion tracking and measurement, eye gaze input, and scanning. From 1984 through 1987 Mr. Goszyk was Vice President, Engineering of Franklin.

Additional information called for by Item 10 is set forth under the heading "Election of Directors" in the Company's Proxy Statement for its 2004 annual meeting of stockholders (the "2004 Proxy Statement"), which is incorporated herein by this reference.

The Company has adopted a code of ethics that applies to its chief executive officer and chief financial officer, its principal executive officer and principal financial officer, respectively, and all of the Company's other financial executives. The Company has also adopted a code of ethics applicable to all employees, officers and directors. The Company makes both its codes of ethics available free of charge through its internet website, www.franklin.com. The Company will disclose on its web site amendments to or waivers from its code of ethics in accordance with all applicable laws and regulations.

ITEM 11. EXECUTIVE COMPENSATION

Information called for by Item 11 is set forth under the heading "Executive Compensation" in the 2004 Proxy Statement, which is incorporated herein by reference.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

Equity Compensation Plan Information

The following table gives information about the Company's common stock, \$.01 par value ("Common Stock") that may be issued upon the exercise of options, warrants and rights under all of the Company's existing equity compensation plans as of March 31, 2004, including the Company's 1988 Stock Option Plan, the Company's 1998 Stock Option Plan, the Company's Restricted Stock Plan, and various Stock Option Agreements to which the Company is a party.

<u>Plan Category</u>	<u>(a) Number of securities to be issued upon exercise of outstanding options, warrants and rights</u>	<u>(b) Weighted average exercise price of outstanding options, warrants and rights</u>	<u>(c) Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))</u>
Equity compensation plans approved by security holders	2,566,136	\$5.39	277,716
Equity compensation plans not approved by security holders(1)	212,500	\$3.78	4,700
Total	<u>2,778,636</u>	<u>\$5.27</u>	<u>282,416</u>

(1) Includes (i) the Company's Restricted Stock Plan, and (ii) the Stock Option Agreements entered into between the Company and each of Arnold D. Levitt, Andrew Horsfall, and Kurt A. Goszyk, each of which is described below.

Restricted Stock Plan

The Company maintains a Restricted Stock Plan which provides for the grant of shares of Common Stock for services. The shares are subject to a restriction on transfer which requires the holder to remain employed by the Company for up to three years in order to receive the shares. As of March 31, 2004, under the Restricted Stock Plan, 4,700 shares of Common Stock were available for distribution by the Board of Directors.

Stock Option Agreements

In July 1999, in connection with the hiring of Arnold D. Levitt, our Senior Vice President, the Company entered into a Stock Option Agreement pursuant to which the Company granted Mr. Levitt an option to purchase 50,000 shares of Common Stock at an exercise price of \$4.00 per share, the fair market value of the Common Stock on the date of grant. Options with respect to one-fourth of the shares become exercisable on each of the first, second, third and fourth anniversaries of the date of grant.

In April 2002, in connection with the hiring of Andrew Horsfall as Vice President of Worldwide Sales and Marketing, the Company entered into a Stock Option Agreement pursuant to which the Company granted Mr. Horsfall an option to purchase 50,000 shares of Common Stock at an exercise price of \$2.22 per share, the fair market value of the Common Stock on the date of grant. Options with respect to one-fourth of the shares become exercisable on each of the first, second, third and fourth anniversaries of the date of grant. Mr. Horsfall left the employ of the Company in November 2003 at which time 37,500 of these options were cancelled.

In August 2002, in connection with the hiring of Kurt A. Goszyk as Vice President, Engineering and Chief Technology Officer, the Company entered into a Stock Option Agreement pursuant to which the Company

granted Mr. Goszyk an option to purchase 50,000 shares of Common Stock at an exercise price of \$1.50 per share, the fair market value of the Common Stock on the date of grant. Options with respect to one-fourth of the shares become exercisable on each of the first, second, third and fourth anniversaries of the date of grant.

In May 2001, in connection with the retention of New York investment bank Gerard Klauer Mattison (GKM) as its financial advisor, the Company entered into an Agreement pursuant to which the Company granted GKM a warrant to purchase 100,000 shares of Common Stock at an exercise price of \$5.00 per share. The fair market value of the Common Stock on the date of grant was \$3.10 per share.

Additional information called for by Item 12 is set forth under the heading "Security Ownership of Certain Beneficial Owners and Management" in the 2004 Proxy Statement, which is incorporated herein by reference.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Information called for by Item 13 is set forth under the heading "Certain Relationships and Related Transactions" in the 2004 Proxy Statement, which is incorporated herein by reference.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Information called for by Item 14 is set forth under the heading "Principal Accountant Fees and Services" in the 2004 Proxy Statement, which is incorporated herein by reference.

PART IV

ITEM 15. EXHIBITS, FINANCIAL STATEMENT SCHEDULES AND REPORTS ON FORM 8-K

(a) Financial statements and schedules filed as a part of this report are listed on the "Index to Financial Statements" contained herein. All other schedules are omitted because (i) they are not required under the instructions, (ii) they are inapplicable or (iii) the information is included in the financial statements.
